

# REPLINE

SPECIALIST IN MANUFACTURING OF REPETITION LINES

*Machining with Excellence...*

# ABOUT US

Repline is a long established family business in Sydney supplying quality custom components, to the Australian industry since the 1950's.

Our scope of work includes machining and milling on precision multi-axis CNC Lathes. The highly competitive business environment of today, demands suppliers committed to maintaining above average "quality", "service", and "value". Due to our long association with the manufacturing industry, we at Repline are uniquely placed to provide repetitive engineering to the highest standards, within short lead times and at competitive prices.

As a result of this level of care, Repline has established and maintained many long standing loyal customers.

# PRODUCTS

The Repline team has the knowledge, experience and expertise to solve all your needs in manufacturing component parts.

We machine a wide range of materials such as:

- Aluminium
- Brass
- Copper
- Stainless Steel
- Mild Steel
- Carbon Steel
- Bronze
- Titanium
- Plastics – Nylon, Acetal, Polyethylene, PVC

Repline has implemented a quality assurance system that ensures all components meet the customer's precise needs and satisfactions. Components undergo quality and precision testing, to individual customer requirements.

# SERVICES

Associated finishes such as, heat treatment, anodizing, powder coating, electro, zinc and mechanical plating, can also be serviced.

Our service also includes the facility to assemble components, and can be packaged to individual customer needs.

We also have the capability to do small fabrication jobs.

Customer components are made to order and can be delivered as they are produced on an agreed date or to a monthly schedule.

With highly qualified and experienced technicians we are able to produce low to high volume productions.

Repline is based in the Sydney Metro and provides an efficient and prompt delivery service to all our customers Australia wide.

Repline speclise in supporting a vast array of industries:

- Automotive
- Aerospace
- Medical
- Mining
- Transport
- Electronics
- Defence
- And many more...

## OUR COMMITMENT TO YOU

- Firm Fast quotes.
- Short delivery lead times.
- Accuracy, precision and attention to detail.
